Frame: Prefinished Klima Grey, then Finished in Field

FINE FINISHING SOLUTIONS

Below are Upstate Door's variety of stain options featured on African Mahogany. We can also produce split finishes to match the outside of the home as well as the inside of the home. All of our finishes are a sheen-30 (satin) finish. We have the ability to match paint colors from many major manufacturers; just provide a color name or ID code and we can do the rest. Or, select just a clear top coat to highlight the natural beauty of the wood.

Stain Options

Shown on African Mahogany. Note that finishes will look different on other wood species.

Clear Coat
(No Stain)

Chappo

Ebony

Provincial

Red Mahogany

Walnut

WHY SHOULD UPSTATE FINISH YOUR DOOR?

Helps activate the product warranty; see the guidelines on the next page

The top and bottom of the door are sealed to prevent water infiltration

Our finishing is done in a controlled environment to prevent dust or other imperfections getting in the finish

The finish is sprayed, not brushed, to offer a more consistent coating

Our finish expands and contracts with the natural movements of the wood without cracking or peeling

Finishing by the manufacturer ensures hard-to-reach areas are covered, including:

- Behind the glass (we paint or stain before the glass is installed)
- In and around all areas that were machined for hardware (behind the hinges, inside the bore)
- Behind the sticking and the spline of a screen
- Backside of the muntins and jambs
- All six sides of a door (front, back, top, bottom, and both side edges)

PAINT + STAIN PACKAGES

Why should you choose a factory finish package from Upstate Door? Industry standard warranties mandate that sealing all surfaces of your door is required shortly after your product is delivered. Having Upstate Door paint or stain your unit will give you peace of mind that this warranty stipulation is addressed immediately.
